

## Insurance Standards

### European Standards EN 14450, EN 1143-1 and EN 1143-2

All certified safes must be tested to the EN1143-1 (non deposit) or EN1143-2 (Deposit) standards as they are manufactured. Once a test certificate has been issued for a particular product only very minor alterations may be permissible such as a lock upgrade or an alarm cable track.

**Any physical alterations to the unit such as the addition of a suction tube, capsule deposit, rotary deposit drum or envelope slot will make the EN1143 certification void for insurance purposes.**

The only safe certification valid in the E.U. is that which has been awarded by a body that has accreditation according to EN45011, which has now been updated to the new ISO/IEC 17065:2012 standard.

### Genuine Marks Of ISO/IEC 17065 European Certification.

The only certification bodies who can issue valid European certification for these standards at present are:

	CNPP - France - Cert mark is A2P	<a href="http://www.cnpp.com">www.cnpp.com</a>
	ECBS - Germany	<a href="http://www.ecb-s.com">www.ecb-s.com</a>
	ICIM - Italy	<a href="http://www.icim.it">www.icim.it</a>
	SBSC - Sweden	<a href="http://www.sbcs.se">www.sbcs.se</a>
	VdS - Germany	<a href="http://www.vds.de">www.vds.de</a>

### Marks Often Mistaken for ISO/IEC 17065 European Certification.

	LPCB - a U.K. Testing & Certification Body not accredited according to ISO/IEC 17065 to certify safes.
	The Association Of Insurance Surveyors "AIS Approved Safe" mark is NOT a certification mark. The AIS is an independent organisation of people working in the safe industry and risk market throughout the UK. The AIS produces a list of safes many of which were manufactured before European certification. The list's stated intent is to act as an aid to the UK insurance industry.

## European Resistance Grades And Security Levels.

*NB: The following cash cover values are approximate only. You may need to confirm with your insurance company the exact value your safe is insured for.*

### Secure Cabinet

Grade	Certification	Cash Cover	Certification
<b>S1</b>	EN 14450	€2,500	Secure Cabinet
<b>S2</b>	EN 14450	€5,000	Secure Cabinet

### Secure Storage Units, ATMs, Safes and Strongrooms

Grade	Certification	Cash Cover	Certification
<b>0</b>	EN 1143-1	€9,000	Secure Storage Unit
<b>1</b>	EN 1143-1	€15,000	Secure Storage Unit
<b>2</b>	EN 1143-1	€26,000	Secure Storage Unit
<b>3</b>	EN 1143-1	€50,000	Secure Storage Unit
<b>4</b>	EN 1143-1	€100,000	Secure Storage Unit
<b>5</b>	EN 1143-1	€150,000	Secure Storage Unit
<b>6</b>	EN 1143-1	€200,000	Secure Storage Unit
<b>7</b>	EN 1143-1	€375,000	Secure Storage Unit
<b>8</b>	EN 1143-1	€600,000	Secure Storage Unit
<b>9</b>	EN 1143-1	€975,000	Secure Storage Unit
<b>10</b>	EN 1143-1	€1.5M	Secure Storage Unit
<b>11</b>	EN 1143-1	€2.25M	Secure Storage Unit
<b>12</b>	EN 1143-1	€3.37M	Secure Storage Unit
<b>13</b>	EN 1143-1	€5.25M	Secure Storage Unit

### Deposit Safes

Grade	Certification	Cash Cover	Certification
<b>1</b>	EN 1143-2	€15,000	Deposit System
<b>2</b>	EN 1143-2	€26,000	Deposit System
<b>3</b>	EN 1143-2	€50,000	Deposit System
<b>4</b>	EN 1143-2	€90,000	Deposit System
